Brainstorm & Idea Prioritization Template

This section lists possible ideas for improving the cosmetic product analysis dashboard. Ideas are grouped and then prioritized using importance and feasibility so the best features can be selected first.

Step-1: Team Gathering, Collaboration and Select the Problem Statement

Team Gathering	Participants discuss customer problems in cosmetic buying: product overload, confusing ingredients, price differences, and lack of skin-type guidance.
Goal	Create a simple data-driven dashboard that helps customers compare cosmetic products and helps businesses understand product trends.
Key Rules	Encourage all ideas, do not judge early, focus on customer needs, and choose ideas that can be shown clearly through data visualization.
Selected Problem Statement	How might we help cosmetic shoppers choose safe, suitable, and affordable products using cosmetic product analysis?

Brainstorm, Idea Listing and Grouping

Step-2: Brainstorm, Idea Listing and Grouping

Brainstormed ideas are listed below and grouped into categories. These ideas can become dashboard sheets, filters, KPIs, or product recommendation features.

Dashboard Insights	Product Suitability	Trust & Safety	Price & Value	User Experience
Top 10 brands by product count	Skin-type filter	Ingredient risk badge	Budget product recommendations	Simple search bar
Product count by category	Concern filter: acne, dry skin, oily skin	Fragrance-free tag	Price vs rating chart	Beginner-friendly glossary
Rating distribution	Shade/skin tone guidance	Allergen warning	Value-for-money score	Mobile-friendly dashboard
Price range summary	Routine builder	Vegan/cruelty-free filter	Discount or deal highlight	Favorite/save product option
Brand comparison	Product comparison table	Review reliability note	Premium vs affordable comparison	Clear dashboard icons

Ideation Phase

Grouped Ideas Summary

Group	Main Idea	Why It Helps
Brand & Product Insights	Top brands, product count, category split	Shows market diversity and helps compare product availability.
Customer Suitability	Skin-type, concern, and product category filters	Helps users quickly find products relevant to their needs.
Safety & Ingredients	Ingredient risk badge and allergen/fragrance tags	Builds trust and supports sensitive-skin customers.
Price & Rating Analysis	Price vs rating chart and value-for-money score	Supports budget decisions and highlights better choices.
User-Friendly Design	Search, glossary, icons, and simple layout	Makes the dashboard easy for beginners to understand.

Idea Prioritization

Step-3: Idea Prioritization

Ideas are prioritized by Importance and Feasibility. High importance means the idea strongly solves a customer problem. High feasibility means the idea can be created easily using available cosmetic product data and Tableau dashboard features.

Importance / Feasibility	Low Feasibility	High Feasibility
High Importance	Personalized AI recommendation quiz Shade finder using photo/AI Review authenticity score	Skin-type filter Ingredient risk badge Price vs rating chart Product comparison table Top brand/category KPI
Low Importance	Celebrity trend tracker AR makeup try-on Social media buzz score	Beginner glossary Dashboard icons Brand product count card Search bar Clean category labels

Priority Scoring Table

Idea	Importance (1-5)	Feasibility (1-5)	Score	Priority	Decision
Skin-type and concern filters	5	5	25	P1	Build first

Ideation Phase

Ingredient risk badge	5	4	20	P1	Build first
Price vs rating chart	4	5	20	P1	Build first
Product comparison table	4	4	16	P2	Add after core dashboard
Top brand/product count KPI	3	5	15	P2	Add for overview

Final Selected Ideas for Cosmetic Product Analysis Dashboard

- Create filters for skin type, concern, product category, price range, and brand.
- Use KPIs for total products, top brand, average rating, and average price.
- Add a Price vs Rating chart to find value-for-money products.
- Add an ingredient/risk indicator or safety note for sensitive-skin users.
- Add a product comparison table for brand, category, price, rating, and key ingredient information.
